

SINCE 
1979

Always Keep With The Best

Let's grow together ...

HAMKO is a leading manufacturer of Lead Acid batteries in Bangladesh. Apart from battery manufacturing, HAMKO also leads the way in battery manufacturing components, chemicals and supports overall battery manufacturing industries in Bangladesh.

Our Mission

"To position HAMKO as a chosen brand in Bangladesh and abroad through quality and service of our products."

Our vision

To create a world class product with the bundle of humble service makes us responsible to;

- Provide best value for end user/users/customers.
- Play a vital role for environment.
- Make customers/user's daily life easier.
- Increase customer awareness about global impact.

SUPER DC

PREMIUM QUALITY ■ HEAVY DUTY ■ DRY CHARGED ■ LOW MAINTENANCE

Certified by multiple international standard organization

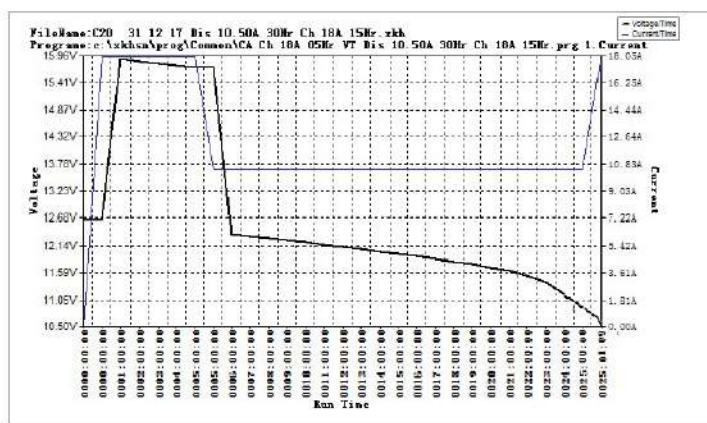

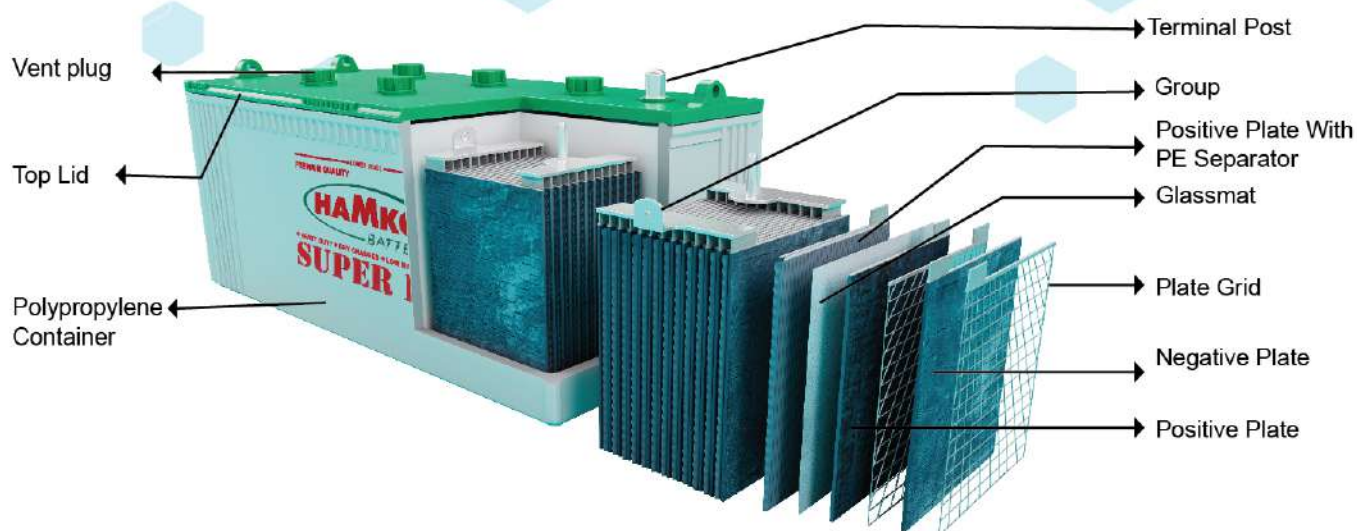

Always Keep With The Best

HAMKO "Super DC" Battery Construction & Features:

Each energy cell of the HAMKO "Super DC" battery has been developed for high-cranking applications using advanced technology of lead acid battery. The ability to deliver high current is a requirement of many applications, that is why "Super DC" has been rated higher than the capacity declaration through applying cell chemistry of advanced technology and maintaining 100% pure lead of active materials. "Super DC" batteries are made of high-quality components that ensure maximum ionic conductivity, negligible self-discharge and higher life time.

The graph represents the charge-discharge characteristics of the HAMKO "Super DC" lead acid low-maintenance battery. It appears in this graph that battery "Super DC" N200 has been charged and discharged during 20 Hrs in 14 avg charging amps & and in 10 avg discharging amps respectively. It proves that the HAMKO "Super DC" N200 Battery contains above 200 AH as well as it ensures 100% efficiency of the HAMKO "Super DC" Battery.

Always Keep With The Best

Customer benefit of HAMKO "Super DC" Battery:

- » Designed for heavy cranking load.
- » Highly responsive to load in idle condition.
- » Low requirement for regularly topping up.
- » Perfect design to deliver higher starting current.
- » Eighteen months warranty.
- » Robust construction and high scrap value.
- » Specially designed for Generator, Steamer, Launch, Lorry & Pickup van.

TECHNICAL SPECIFICATION & APPLICATION OF "SUPER DC" LEAD ACID STORAGE BATTERY

SL No.	Battery Type	Volt	Plate /Cell	AHC @ 20 Hrc	Dimension in mm Approximate				Possible Application	Engine Capacity	Generator Capacity
					L	W	H				
							Without Post	With Post			
1	N100	12	17	110	410	173	210	237	Mini Bus, Track, Pickup, JAC, POTON, PAY LOADER and BEKU	1800 CC to 2000 CC	60 KW to 110 KW
2	N100Z	12	19	115	410	173	210	237	Mini Bus, Track, Pickup, JAC, POTON, PAY LOADER and BEKU	2200 CC to 2398 CC	60 KW to 120 KW
